

SAI SAMPATH KARTHIK SALADI

Cloud & DevOps Engineer | [LinkedIn](#) | +91 9052534926 | karthiksaladi047@gmail.com | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Cloud & DevOps Engineer with 4 years of experience supporting production-grade **SaaS platforms**, **SRE** operations, and **cloud transformation** initiatives across **GCP**, **AWS**, **Azure**, **Kubernetes**, and **OpenStack**. Proven expertise in infrastructure automation (**Terraform**, **Ansible**), scalable observability (**Prometheus**, **Cortex**, **Grafana**), and **incident response** in high-availability environments. Certified across **GCP** (PCA, ACE), **Kubernetes (CKA)**, **AWS**, and **Azure**. Adept at enabling enterprise **cloud** and **database** migrations, driving **secure cloud-native** adoption, and delivering operational excellence through **SRE** practices.

AREAS OF EXPERTISE

- **Cloud Platforms:** GCP (GKE, IAM, Cloud SQL, GCS), AWS, Azure
- **Kubernetes & Orchestration:** GKE, Helm, Cluster Autoscaler, CSI, RBAC
- **DevOps & Infrastructure:** Linux, Kubernetes, OpenStack, Terraform, Docker, Ansible, TeamCity, ArgoCD, Git
- **Monitoring & Observability:** Prometheus, Loki, Cortex, Grafana, Alerting Systems
- **Security:** IAM, TLS/SSL, Secrets Management, RBAC, Vulnerability Scanning
- **Scripting & Tools:** Python, Bash, Next.js, SQL, Jira, Confluence, FireHydrant
- **Soft Skills:** Effective Communication, Cross-functional Collaboration, Customer Empathy, Active Listening, Strong Documentation

PROFESSIONAL EXPERIENCE

L1 Cloud Support Engineer

October 2023 - Present

Platform9 Systems - Pune, MH, India.

- Delivering enterprise-grade support for Platform9-managed **Kubernetes** and **OpenStack** workloads across multi-cloud (**GCP**, **AWS**) and **air-gapped** environments.
- Led customer-facing **incident response** and **zero-downtime migrations**, improving SLA adherence and reducing **MTTR**.
- Automated SaaS environment provisioning using **Terraform** and **Ansible** to enable scalable, repeatable deployments for multiple tenants.
- Built **Python**-based tooling for cloud cost **optimization**, **compliance automation**, and **database migration** orchestration across GCP and AWS.
- Designed and deployed observability stacks using **Prometheus** (Cortex), **Loki**, and **Grafana** with dynamic **service discovery** and **SLO-driven alerting**.
- Embedded **security** best practices in CI/CD pipelines, including **secrets management**, **TLS configuration**, and automated **vulnerability scanning**.
- Collaborated cross-functionally to enforce cloud-native practices and uphold **SRE** principles such as **toil reduction**, high **availability**, and **scalability**.
- Supported **Kubernetes ingress** configuration, **firewall** rule management, and **load balancer** setup for secure traffic routing.
- Configured VPC **networking** and hybrid cloud connectivity for customer environments on GCP and AWS.

Program Analyst - DevOps

December 2021 - October 2023

Cognizant Technology Solutions - Hyderabad, TS, India.

- Contributed to cloud transformation projects by automating **infrastructure provisioning** and configuration using **Terraform** and **Ansible** on **Azure** and **GCP**.
- Managed Kubernetes clusters (**AKS** and **GKE**) for production workloads; implemented health checks, autoscaling, and rolling upgrades.
- Built and maintained **CI/CD pipelines** using **Jenkins** and **Azure Pipelines** with integrated with **security** scans.
- Deployed centralized **monitoring** and alerting stacks to enable proactive observability for distributed applications.
- Applied **DevSecOps** practices by automating TLS enforcement, secret rotation, and vulnerability checks in container pipelines.
- Participated in the planning and execution of cloud migrations from on-prem to GCP/Azure, supporting service discovery and cutover strategy.
- Handled **IAM** configuration, service account policies, and SSL/TLS certificate management in cloud-native applications.

Frontend Developer Intern

August 2021 - November 2021

PhysicsWallah (PW) – Remote

- Built and maintained responsive UI components using **React.js** and collaborated with Product team to integrate APIs.
- Gained hands-on experience with **component-based design**, state management, and modern front-end development workflows.

PROJECTS

- **SaaS Lifecycle Automation Tool (Platform9 – [GitHub](#))**
 - Built a full-stack internal tool using **Next.js**, to automate provisioning, configuration, and monitoring of SaaS environments across customer accounts. Reduced manual operational effort by **60%**, cloud cost by **22%** and standardized lifecycle actions across teams.
- **Cloud Cost Optimization Automation (AWS) (Platform9 – Internal)**
 - Automated GCP and AWS cost analysis using Python, with tagging enforcement and Graviton/Preemptible instance migration strategies. Saved customers 20–25% monthly via actionable recommendations, including seamless migration to **Graviton-based instances**.
 - Led automation of **zero-downtime database migrations** for critical customer SaaS environments, ensuring high availability and reliability throughout transitions.
- **GitOps Pipeline with ArgoCD (Personal – [GitHub](#))**
 - Implemented GitOps workflows using **ArgoCD** for Kubernetes-based applications. Configured auto-sync, rollback, and secure promotion pipelines to multiple environments. Practiced GitOps principles for reproducible deployments.
- **Production-Grade Monitoring Stack (Platform9 – Internal & [GitHub Demo](#))**
 - Designed and deployed a comprehensive observability stack for Kubernetes workloads using **Prometheus, Grafana, Alertmanager, Pushgateway, Node Exporter, Docker metrics**, and **Sandbox Exporter**. Implemented dynamic service discovery, custom alerting rules, and **SLO-based Slack alerting** for customer-facing environments.
- **Infrastructure Automation with Terraform & Ansible (Personal – [GitHub](#))**
 - Automated deployment of a web server on cloud instances using **Terraform** for infrastructure provisioning and **Ansible** for configuration. Included dynamic inventory management and remote execution.

CERTIFICATIONS

- **Kubernetes:**
 - Certified Kubernetes Administrator (**CKA**) – The Linux Foundation
- **Google Cloud:**
 - Google Cloud Professional Cloud Architect
 - Google Cloud Associate Cloud Engineer
- **AWS:**
 - AWS Certified Solutions Architect – Associate
 - AWS Certified Developer – Associate
 - AWS Certified SysOps Administrator – Associate
- **Azure:**
 - Microsoft Certified: DevOps Engineer Expert (AZ-400)
 - Microsoft Certified: Azure Developer Associate (AZ-204)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
- **Oracle Cloud:**
 - Oracle Cloud Infrastructure Certified DevOps Professional

EDUCATION

Bachelor of Technology - Mechanical Engineering | 2018 - 2021 | SRKR Engineering College, Bhimavaram, AP, India.

AWARDS

- Cloud Support Excellence Award | 2024 | Platform9 Systems.
- Cloud Champion Award | 2023 | Cognizant Technology Solutions.

LEARNING & EMERGING TECH

Currently exploring:

- Prompt Engineering,
- LLM embeddings,
- Rust Programming
